DE RIGO ITALIAN CONCEPT

De Rigo Refrigeration vanta oltre mezzo secolo di esperienza nel settore della progettazione, produzione e installazione di banchi frigo, centrali frigorifere e celle per il settore del retail. L'Azienda firma la qualità del proprio prodotto con l'eccellenza garantita da un prodotto non solo realizzato, ma disegnato e progettato in Italia.

De Rigo Refrigeration accompagna il cliente come un vero e proprio partner in ogni fase, dal preventivo sino all'installazione del prodotto finito, garantendo la massima flessibilità e tempestività e proponendo soluzioni innovative e su misura.

L'Azienda pone molta attenzione all'impatto ambientale, all'efficienza e al risparmio energetico, valori che coinvolgono tutto il ciclo produttivo, evidenziando il ruolo attivo di eccellenza nei confronti dell'eco-sostenibilità.

De Rigo Refrigeration

boasts over half a century of experience in the design, manufacturing and installation of refrigerated cabinets, multi-compressor rack systems and cold rooms for the retail -sector. The quality of our products is guaranteed by the excellence of refrigeration solutions that have not only been manufactured but also designed and developed in Italy.

De Rigo Refrigeration supports its customers every step of the way, acting as a true partner, from the quotation to the installation of the finished product, assuring the utmost flexibility and timeliness as well as proposing innovative, tailored solutions. The company is deeply focusing on environmental impact, energy efficiency and saving. These values apply across the entire production cycle, emphasising the company's active efforts to maintain standards of excellence in the field of environmental sustainability.

De Rigo Refrigeration

vante une expérience de plus d'un demi-siècle dans le secteur de la conception, la production et l'installation de comptoirs frigorifiques, de centrales réfrigérées et de cellules pour le secteur de la vente au détail. L'entreprise propose un produit de qualité.

Son excellence est garantie par un produit non seulement réalisé, mais également dessiné et conçu en Italie.

De Rigo Refrigeration accompagne son client comme un véritable partenaire dans chaque phase, du devis jusqu'à l'installation du produit fini, en garantissant une flexibilité et une rapidité maximales et en proposant des solutions innovantes et sur mesure. L'entreprise est très attentive à l'impact environnemental, à l'efficacité et à l'économie énergétiques, des valeurs qui concernent tout le cycle de production, en soulignant le rôle actif d'excellence en faveur de la durabilité environnementale.

De Rigo Refrigeration

hat mehr als ein halbes Jahrhunderts Erfahrung in Bereich Planung, Herstellung und Installation von Kühlmöbel, Kühlanlagen und Kühlzellen. Das Unternehmen plant, entwirft und realisiert seinen Produkten komplett in Italien um die bessere Qualität zu garantieren.

De Rigo Refrigeration begleitet den Kunden als ein Partner in jeder Phase: vom Kostenvoranschlag bis zur Installation des Endprodukts. Das Unternehmen trifft Kundenwünsche mit innovative und kundenspezifischen Lösungen und gewährleistet maximale Flexibilität und rechtzeitige Lieferung.

De Rigo Refrigeration hat seit Jahren sich an Umwelt fokussiert. Produkt Effizienz, Energieeinsparung, Umweltsicherheit sind Ziele das unsere Mitarbeiter immer in Fokus haben. Nicht nur bei Herstellung von Produkten, sondern auch bei den ganzen Produktionszyklen, und stellt so seine aktive Hervorragende Rolle in Bezug auf die ökologische Nachhaltigkeit unter Beweis.

De Rigo Refrigeration

cuenta con más de medio siglo de experiencia en el sector del diseño, producción e instalación de muebles refrigerados, centrales de refrigeración y cámaras frigoríficas para el sector retail.

De Rigo Refrigeration garantiza productos de excelente calidad, diseñados, proyectados y fabricados en Italia.

Además, acompaña al cliente en cada una de las fases comerciales: desde el presupuesto hasta la instalación del producto acabado, asegurando la máxima flexibilidad e inmediatez, y ofreciendo soluciones innovadoras y a medida.

De Rigo Refrigeration también se preocupa mucho por el impacto medioambiental, la eficiencia y el ahorro energético, valores que tienen que ver con todo el ciclo de producción, resaltando el papel activo que desempeña en relación con el tema de la ecosostenibilidad.

EURO PUKET 2.0 RANGE

EURO PUKET 2.0 è un murale multipiano, disponibile con e senza porte, adatto all'esposizione di carni confezionate (classe M1) , di salumi e latticini (classe M2) e ortofrutta (classe 3H). L'estetica marcatamente moderna e minimalista, l'illuminazione LED e la trasparenza dei fianchi panoramici in vetrocamera, permettono un'ottima visibilità dei prodotti esposti.

3

EURO PUKET 2.0 is a multideck chiller, available with and without doors, suitable for displaying packed meats (class M1), cold cuts and dairy products (class M2), fruit and vegetables and fresh salads (class 3H). The extremely modern and minimalist look, the LED lighting and the transparent panoramic double glazed endwalls make sure the products displayed can be clearly seen.

EURO PUKET 2.0 est un meuble mural à plusieurs étagères, disponible en version sans et avec portes, prévu pour l'exposition de viandes emballées (classe M1), charcuteries et produits laitiers (classe M2) et de primeurs et quatrième gamme (classe 3H). L'esthétique résolument moderne et minimaliste, l'éclairage à LED et la transparence des flancs panoramiques en double vitrage, permettent une excellente visibilité des produits exposés.

EURO PUKET 2.0 ist ein Wandkühlregal das in der Version mit oder ohne Türen erhältlich ist und zum Ausstellen von abgepacktem Fleisch (klasse M1), Wurstwaren und Milchprodukten (klasse M2) Obst und Gemüse (klasse 3H) geeignet ist. Das eindeutig moderne und minimalistische Design, die LED-Beleuchtung und die Transparenz der Panorama Seitenwänden aus Isolierglas, ermöglichen eine hervorragende Visibilität der ausgestellten Produkte.

EURO PUKET 2.0 es un mural vertical, disponible con o sin puertas, apto para la exposición de carnes envasadas (clase M1), embutidos y productos lácteos (clase M2) y frutas verduras y cuarta gama (clase 3H). La estética marcadamente moderna y minimalista, la iluminación LED y la transparencia de los laterales panorámicos en cristal permiten una excelente visibilidad de los productos expuestos.

Il nuovo batticarrello in inox a sezione quadra opzionale riprende le linee del banco, che rendono **EURO PUKET 2.0** un murale elegante ed adattabile a qualsiasi superficie di vendita.

The new square optional trolley protection follows the lines of the display case, making the **EURO PUKET 2.0** an elegant wall unit that adapts to any sales surface.

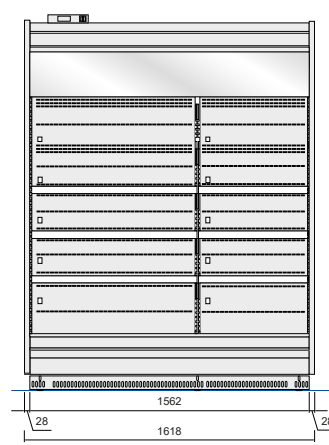

Le nouveau pare-choc à section carrée en option reprend les lignes du présentoir, qui confèrent au meuble mural **EURO PUKET 2.0** un aspect élégant et lui permettent de s'adapter à toutes les surfaces de vente.

Das neue quadratische Stoßleiste (optional) greift die Linien des Regals auf und macht **EURO PUKET 2.0** zu einem eleganten und an jegliche Verkaufsflächen anpassungsfähigen Ausstellungsregal.

El nuevo parachoques inferior cuadrado (opcional) sigue la línea del mural, convirtiendo **EURO PUKET 2.0** en un mueble elegante adaptable a cualquier superficie de venta.
